# 1. What is StaTact?

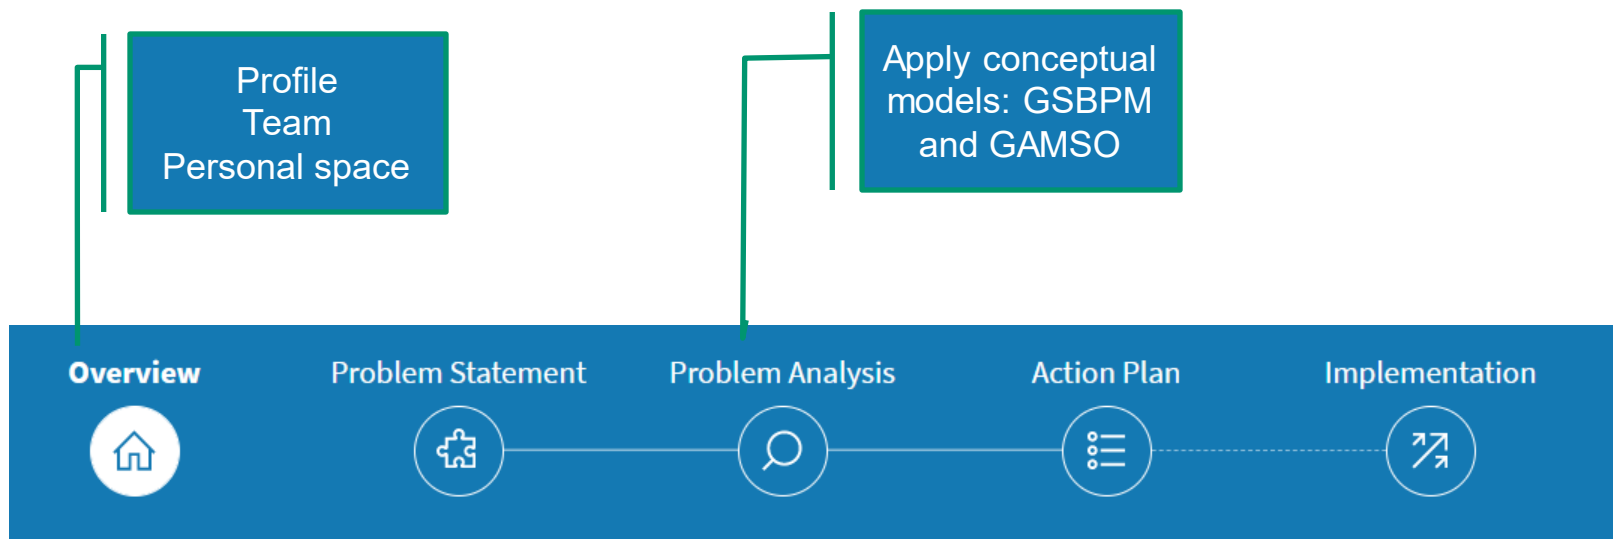

1. StaTact enables countries to address measurement gaps that impede monitoring national policies and to resolve problems tactically.
2. Developed in 2020 by UNITAR and UN Statistics Division.
3. Provides an analytical framework and a multi-stakeholder methodology.
4. Facilitates design of a short-term action plan.
5. Bring together data producers and users to help them achieve their goals.
6. Used by Mexico, Philippines and Grenada, Andean Community, Paraguay, Pacific Island and Caricom (planned).

Fred Bombeck has some experience on using these scanning data and has developed some quality control routines. Might want to call him and see if he can participate

## ▼ Problem and Business Case ⓘ

Problem

B I

What is the problem

Why is it important to solve

Less than 10% of the educational institutions return the annual educational statistical questionnaire by the stated due date. This affects the ability of the Ministry of Education to make timely data-driven decisions.

The timely submission of reliable, and relevant data will help improve analysis and design better targeted interventions to enhance learning outcomes. It will also enable a more efficient allocation of resources and a more effective and impactful programming.

# Problem Analysis - Relevant Indicators

## Relevant Indicators

What key indicators will benefit from the resolution of the problem.

# Problem Analysis - Using GSBPM and GAMSO

## Causes Identification !

GSBPM Data Ecosystem

GAMSO Governance

### Participation rate of youth and adults in formal and non-formal education and training

Annual educational statistical questionnaire

#### Primary Process Weakness and Cause

Agencies

**Design | Design variable descriptions**  
The questionnaire is too long and too technical.

- National Statistics Office (Main Agency)
- Ministry of Education

**Collection | Set up collection**  
The questionnaire sent and the deadline set during the busiest time of the year.

- Ministry of Education (Main Agency)

**Collection | Run collection**  
Varying levels of interest and differences

- Ministry of Education

## Causes Identification !

GSBPM Data Ecosystem

GAMSO Governance

SDG Indicators 4.3.1

### Participation rate of youth and adults in formal and non-formal education and training in the previous 12 months, by sex

Annual educational statistical questionnaire

#### Primary Process Weakness and Cause

Agencies

Priority

Included

Solutions

**Capability development | Develop capability improvements**  
Lack of awareness among school heads to better respond to the questionnaire.

- Ministry of Education (Main Agency)
- National Statistics Office
- School Heads

High

- A meeting with school masters to increase their awareness on the importance and benefits of quality data from the questionnaire.

**Corporate support | Manage data suppliers**  
Lack of communication between Ministry of Education and schools.

- Ministry of Education (Main Agency)
- School Heads

High

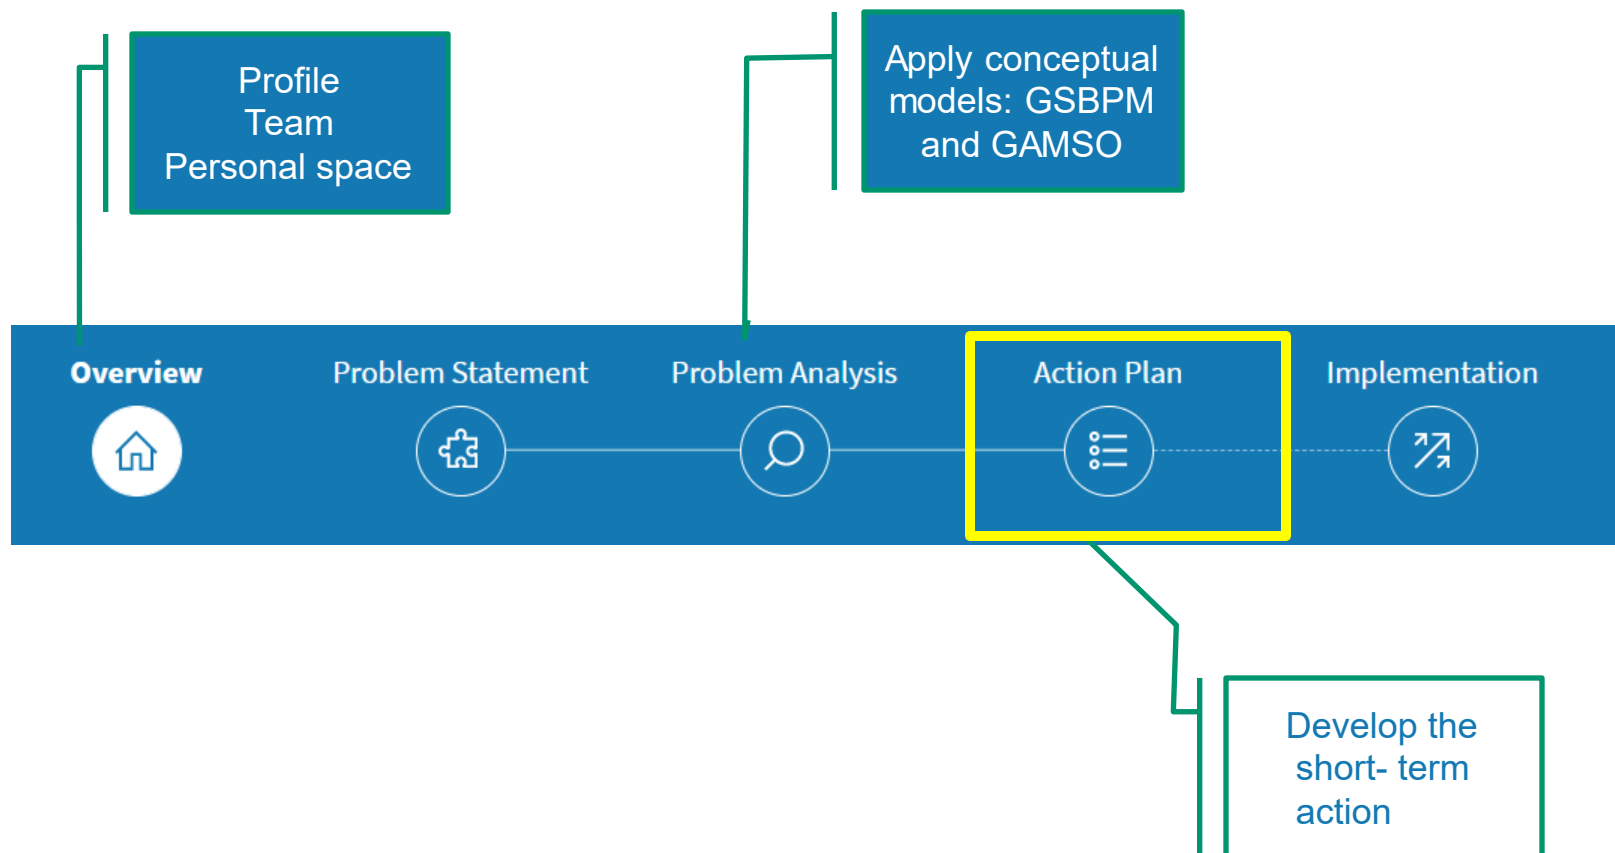

- A joint calendar to be developed by the Ministry of Education and Schools.
