# *Next steps towards the Informational system on “Population and Migration Statistics”*

**Oleg Cara**  
general director  
National Bureau of Statistics

International Technical Advisory Board (ITAB) meeting March 30, 2021

# Next steps towards *AIS “Population & migration statistics”*

- **Endorsement and Government approval of the concept of integrated information system**
- **Harmonization of the core and secondary legislative & regulatory framework**
- **Work with holders of administrative data** to showcase measures applied by NBS in protection of personal data
- **Complete** the assessment of other administrative data sources (for statistical purposes), including on aspects related to personal data protection
- **Enhance the consumption (use)** of data from relevant data holders (administrative and private data sources) via interoperability platform and by respective personal data protection policies
- **Accomplish the revision** of population number and migration estimates at the lowest sub-national level
- Win the stakeholder, political and user **support**
- **Partnerships** with data holders and data users - guarantee for success through **cooperation & collaboration; Peer-to-peer learning and sharing**
- **Acceleration of the modernization in statistics** (with support of all/other development partners – EU ParStat project, UN Moldova, etc.)

# Timetable – stages and actions

## Key stages
